

SYLLABUS

Title: Neurology & Vagus Nerve Stimulation

Instructor: Dr. Stuart Humberg

CE Hours Requested: 12

I. COURSE OBJECTIVES

This program will enhance the doctor's knowledge of neurology and the vagus nerve. It will enable the doctor to diagnose and treat his patients with a better knowledge of how the vagus nerve affects a variety of aspects of the body and health. It will increase his ability to properly assess and evaluate the patient's functionality to better treat problems that affect the patient.

II. COURSE OUTLINE

Hour One	Overview & Review of Anatomy <ol style="list-style-type: none">1. Overview2. CNS & PNS Systems
Hour Two	Anatomy of the Vagus Nerve <ol style="list-style-type: none">1. Situation2. Outreach to other areas of the body3. Affects
Hour Three	Overview of Vagus Nerve Integration with Neural Systems
Hour Four	Treating the Whole Body How Systems Link and the Chiropractic Approach to treating them
Hour Five	An in-depth look at VN & Neurological Function <ol style="list-style-type: none">A. Signs to look forB. Proper EvaluationC. Treatments
Hour Six	<ol style="list-style-type: none">A. Signs of stressB. What to look for before treating
Hour Seven	Systems & Function that relate to Neurological Issues <ol style="list-style-type: none">A. Specific issuesB. Common ConcernsC. Protocols

Hour Eight	The Neurological Effect on Function Assessment Tests
Hour Nine	The Vagus Nerve and it's effect on Function Assessment Correction
Hour Ten	Problem areas that relate to the Vagus Nerve Function 1. Identifying the problem 2. Chiropractic Assessment
Hour Eleven	Pain & Symptom Management 1. Symptoms Presented 2. Evaluation & Assessment
Hour Twelve	Chiropractic Treatments 1. Causes, Evaluation & Diagnosis 2. Proper Treatment Protocols 3. Rehabilitation
