

Course Syllabus
Radiology of Scoliosis
Dr. Marshall Deltoff

1 Hour

COURSE OBJECTIVE To develop an understanding of the various etiologies of scoliosis and its clinical categorization.

COURSE PURPOSE To aid the Chiropractic profession by providing Chiropractors with the information regarding the causes of scoliosis and their categorization.

COURSE OVERVIEW

HOUR 1

This course will give the Chiropractor an in-depth understanding of the various etiologies of scoliosis and its clinical categorization. You will learn the definitions and categorization of various etiologies of scoliosis and an introduction to the radiographic evaluation of spinal curvature, including technical and roentgen-metric considerations. Also, the utilization of plain film radiography in the categorization and evaluation of scoliosis and therapy options for scoliosis including discussion of various braces and types of surgery.
