Course Syllabus

Basic Case Management

COURSE OBJECTIVE

To describe the basic case management algorithm of evaluation, diagnosis, treatment, and re-evaluation

STATEMENT OF PURPOSE

The purpose of this course is to aid the Chiropractic Profession by providing Chiropractors with information regarding the basic case management protocol in the evaluation and treatment of a chiropractic patient

OVERVIEW OF COURSE

This course will provide Chiropractors with the basic principles of case management. It will include discussion on evaluation, diagnosis, setting goals and treatments. As part of this course you will also be introduced to the use of outcome assessments.

COURSE OUTLINE

HOUR 1 Examination Procedures/Diagnosis
The Basic Case Management Algorithm
Symptom Based Outcome Assessment Tools
Function Based Outcome Assessment Tools
Slides and narration of above material

PROGRAM FORMAT

www.dchours.com

All of courses are presented in the following format:

- Each course is in the format of a narrated slide presentation. Each slide in the course has accompanying narration and presentation moves through the slides automatically.
- The doctor viewing the presentation may not move forward to the next slide until the narration of the current slide is completed. The doctor may go back and view previous slides at any time, however in order to receive a certificate of completion the doctor must view all of the slides and listen to all of the narration for each slide. This insures that all the slides in the presentation are viewed and the required amount of time is guaranteed.
- The course will automatically log all the hours that the doctor spends viewing the course.
- In addition to the quizzes, the doctor must also pass a final exam. Only after the doctor completes viewing and listening to each slide and the final exam is complete, will the certificate of completion be issued.
- Information for each course is gathered from books, peer reviewed articles, and experience. All courses include references and courses are updated each year.
- Attendance is monitored by the software program. It logs and tracks all the time spent viewing the course.
- The licensee is allowed 6 months to complete a course.
- DC Hours.com maintains records of licensee completing a course of study for 7 years
