

# Patient Intake, History and Examination

Mark Studin DC, FPSC, FASBE (C), DAAPM

2 "Online" CE Credits

## **Syllabus:**

Module 1: Patient Intake, History and Examination for every patient; trauma, chronic and acute or sub-acute

Examination Procedures/Diagnosis – 2 Hours

## **How hours will be monitored:**

**Each video cannot be fast-forwarded and a post-test must be completed for each section.**

**Course Objective:** To be able to understand the Evaluation and Management (E&M) process from acute, chronic and sub-acute patients.

**Course Goals:** This course will provide the chiropractor with the understanding of what needs to be done and why, gives the tools to prevent "omissions" in completing documentation to ensure a complete examination, get paid timely, and avoid insurance company audits or prevail if exposed to one.
