

# Dallas 2023 Schedule

## Friday, March 24<sup>th</sup>:

**4:30 PM - 5:00 PM: *Registration***

**5:00 PM - 5:50 PM:** Dr. Mark Sanna: Systematize Your Active Care Rehab Procedures Part I: Implementing Active Care in a Busy Practice: Unskippable Steps to Success

Systematize Your Active Care Rehab Procedures Part I: Implementing Active Care in a Busy Practice: Unskippable Steps to Success—Dr. Mark Sanna, Your practice is filled with patients with acute and chronic conditions that are treatable and preventable with Active Care. And yet, according to a recent Chiropractic Economics survey, only 50% of DCs offer their patients ancillary services such as Active Care exercises or functional testing. The reason is that it can all seem so time-consuming and complicated. Are you ready to do something about it? In this session, you'll learn the unskippable steps to quickly implement active care procedures in your practice to help combat your patients' most common conditions, Tech Neck and Sitting Disease.

**5:50 PM - 6:10 PM: *Break***

**6:10 pm - 7:00 pm:** Dr. Morgan Mullican: Systematize Your Active Care Rehab Procedures Part II: Improving Patient Outcomes Using a Hands-on Approach

When addressing soft tissue dysfunction or correcting musculoskeletal impairments, clinicians are keen to incorporate the most impactful treatment strategies to address their patients' impairments. The primary goals are to reduce impairments and maximize function and performance within the shortest time possible. Attendees to this hands-on workshop will learn the most impactful manual therapy techniques, including post-isometric relaxation technique and extracorporeal shockwave therapy (ESWT) to improve patient outcomes.

## Saturday, March 25<sup>th</sup>:
