Title: Photobiomodulation Therapy for Traumatic Brain Injuries

Presenter: Richard Amy, DC

1 CEU

PACE ID: 2025-04-AV

Course Summary

Join us to look at the prevalence of TBI and how it plays a critical role in acute and chronic brain health. We will be taking a deep dive into the Traumatic Brain Injury arena.

Learn the scientific research behind PBM and TBI as we share with you PBM protocols for treating both acute and chronic injury through brain balancing protocols.

- An Overview of the Prevalence of Traumatic Brain Injury in our Patient Population
- A general understanding of the pathology of Traumatic Brain Injury
- Literature Review on the effects of LLLT in treating Traumatic Brain Injury
- PBM Treatment Protocol for Traumatic Brain Injury, Brain Balance and Brain Fog
