A. COURSE / SEMINAR TITLE

New Health Care Vocabulary

B. DESCRIPTION OF THE COURSE

New Health Care Vocabulary course will describe the new words and key phrases currently being used to describe the transformative changes within the care delivery system. The course will use the latest definitions to support the understanding about what is changing in care delivery and how providers must interpret the language to comprehend the new system of care. It will include understanding of key concepts driving the transformation within health care such as population health management, care pathways, and patient-centered care standards. The course will offer information about the triple aim and payment system changes.

C. EDUCATIONAL OBJECTIVES

Upon completion of this seminar, participants are expected to be able to:

1. Understand a new vocabulary being used in health care transformation
2. Understand the key concepts driving the health care transformation
3. Understand and comprehend the transition from a fee for service system to a value-based system of care

D. DESCRIPTION OF TEACHING METHODS USED

This seminar/course will utilize:

Small Group Discussions via Online Forum

Recorded Video (61 minutes, 1 second)

Supplemental Materials: Policies, Resources & Research
